### **League City Holds E-Waste and Shredding Event**

The City of League City is continuing its Lean.Clean.Green. Initiative with a document shredding and e-waste event for the residents and businesses of League City. "Technology changes rapidly and people are always upgrading their gadgets. This event is a way to ensure that those items don't end up in a landfill," said Mike Tubbs, Manager of the League City Recycling Center. The event will be held Saturday, March 26th 2011, from 9 a.m. until 1 p.m. at 1535 Dickinson Ave directly behind the League City Recycling Center.

The event is open to all League City residents and businesses. However, the City asks that businesses limit the number of e-waste items. There is no limit on document shredding for businesses or residents.

The City is also encouraging residents to join the Lean.Clean.Green. Initiative by volunteering to assist with this event. Residents 17 years of age and older, who are able to lift up to 50 lbs are welcome to volunteer. We will provide gloves and lunch for all volunteers! For more information contact Mike Tubbs at [mike.tubbs@leaguecity.com](mailto:mike.tubbs@leaguecity.com).
